To whom it may concern,

I am writing you to please not accept Postmaster General DeJoy's proposals to further cut back our mail delivery service.

Just one of the proposals is to cut airmail to have mail delivered across country by truck. Please, it's almost a joke if it wasn't so frightful. So many of us citizens depend on quality mail service.

Sincerely, Sybria A Pass

Dear Commissioners,
Please do not accept Postmaster General DeJoy's new mail proposals. Just the bits I know about, they are terrible. How come this commission has put up with the horrific things he has already done with our mail service.

Please give this a lot of your attention & is there anyway he can be put in a lower position?
Sincerely,

Sybria A Pass
